

## State Route 166 Old River Road Overlay Kern County

### Project Purpose:

This purpose of this project is to improve safety and operations. At completion, this project will provide an improved primary east-west route from State Route 99 to west of San Emigdio Creek in Kern County. Motorist will benefit from safety improvement, local residence will experience traffic congestion relief, and the movement of services and goods will greatly improve through highway capacity, and continuity improvements.

### Project Description:

This project will rehabilitate State Route 166 from west of San Emigdio Creek to the Junction of State Route 99. This project proposes to dig out and repair localized areas of failure, seal cracks, overlay the repaired pavement with asphalt and widen existing shoulders in each direction of travel to eight feet. Other improvements include left turn channelization at Old River Road and upgrades to metal beam guardrails to current safety standards within the project limits.

**Construction Cost:** \$21 Million

**Begin Construction:** August 2008

**End Construction:** November 2010

**Funding Sources:** State Highway Operation and Protection Program (SHOPP)-Roadway Rehabilitation Program
